

**BUILDER'S
ACKNOWLEDGEMENT OF
FOUNDATION SURVEY REQUIREMENT
AFFIDAVIT**

I hereby attest to the fact that I understand a foundation survey will be required for any residential building project where the proposed structure placement is within one foot of any required zoning setback line. Additionally, if the property line is not adequately marked or the zoning officer cannot reasonably determine if the proposed structure meets setbacks, he may require a foundation survey.

The foundation survey will replace the setback inspection. The survey must be submitted and approved prior to the scheduling of trade rough-in inspections for the project.

The foundation surveys will need to be emailed to landuse@onslowcountync.gov. Once the Land Use staff approves the survey, it will be uploaded into the permit record and the setback inspection will be resulted as passed so that subsequent building inspections can be scheduled by the applicant.
