

MEMORANDUM

To: Onslow County Special Event Organizers

From: Sean Morrison, REHS

Environmental Health Specialist

Date: August 26, 2021

Subject: Event Organizer & TFE Application Requirements Per 15A NCAC 18A .2600

Temporary food establishment applications cannot be accepted if the Onslow County

Environmental Health Department does not first receive notice from the Event Organizer, that the given temporary food establishment has been affiliated with and endorsed by the specific regulatory event. This approach is required in the North Carolina State Rules Administrative Code 15A NCAC 18A .2600, which can be found at <http://ehs.ncpublichealth.com/rules.htm>.

The adoption of the 2009 FDA model Food Code requires our agency to enforce rule 15A NCAC 18A .2651(20) which states,

In Paragraph 1-201.10(B), amend "Temporary food establishment" to: "Temporary food establishment means a food establishment that operates for a period of time not to exceed 21 days in one location, affiliated with and endorsed by a regulatory fair, carnival, circus, festival, or public exhibition. Food establishments that operate in the same event location for more than 21 days per calendar year are not eligible for a temporary food establishment permit. Domestic yard sales and businesses such as auctions, flea markets, or farmers' markets are not eligible for a temporary food establishment permit."

In order to meet the requirements of the North Carolina Rules it is very important that the event organizer information is submitted, which will ensure that temporary food establishments may be able to function and operate within the scope of the intended function of an event.

Per the rule, 15A NCAC 18A .2665(e) states,

The regulatory authority shall require documentation to verify any provision of Rules .2665 through .2669 of this Section.

To be prepared in the unfortunate event of a foodborne illness or communicable disease outbreak, it is requested that you instruct all food vendors: health department regulated, non-health department regulated, and exempt non-profits to submit an application to our office. Vendors that serve non-health department regulated items and those that are using non-profit exemptions will not be assessed fees for their submission of paperwork.

As an event organizer, providing complete and proper documentation to OCHD will help to achieve a smooth and trouble-free permitting experience. Your diligence in providing this documentation helps eliminate common permitting issues leading up to and the day of your event.

If you have any questions or need more information concerning this matter, call 910-938-5851 or email me at [Environmental\\_Health@onslowcountync.gov](mailto:Environmental_Health@onslowcountync.gov).

Sincerely,

Sean Morrison, REHS
