

Licensure/Exemption and Insurance Coverage Certifications

Chapter 87, Article 1 of the N.C. General Statutes prohibits the County from issuing a building permit unless and until the applicant has complied with the general contractor licensing and insurance coverage requirements in that article (see attached copies of Sections 87-1 and 87-14). To ensure such compliance, the County requires that the applicant make the following certifications.

- I am the **owner** of the proposed building. It is my intention to act as my own general contractor, and I understand that the problems which may arise, such as inaccurate or insufficient construction will be solely my responsibility, and I will be left with no resource and must assume total liability for correction of the problems. I personally have a thorough knowledge of all of the NC State construction codes.
- the applicant is engaged in the business of farming, owns the land containing the constructed or altered building, and intends to use the building for the business of farming after its completion;
