APPLICATION:

- 1) *The landowner or the owner’s representative shall complete an application on a form supplied by the local health department. If the owner is represented by an agent, that agent shall submit a written authorization, signed by the owner, indicating that this person is authorized to act as his/her representative in obtaining the on-site wastewater system permits, including soil/site evaluations and other necessary site visits.*
- 2) *It is recommended that the application be accompanied by a plat or site plan, drawn to scale. “A plat or site plan shall not be required with the application for a Construction Authorization to repair a previously permitted system when the repairs will be accomplished on property owned and controlled by the applicant and for which the property lines are readily identifiable in the field”. At a minimum, a sketch showing the building location, driveway, water supply location (well or water lines), and other pertinent features for the property is required. The property must be accurately staked in the field and all property lines readily identifiable.*
- 3) *All information required by applicable laws and rules shall be included with the application. Incomplete applications shall be returned to the property owner or the owner’s representative/agent with a notice of information required to be resubmitted to complete the application.*
- 4) *Identify any ditches, drains, French drains, sock tiles, farm drainage, or any other similar drainage devices or structures within the property.*
- 5) *Identify any wells within 200 feet of the property.*

IMPORTANT NOTICE:

- 1) *The true property corners (Surveyor’s Iron Pipes, Rods, Axles, Etc.) must be identified. Flags will be provided to assist identification of permanent markers in the field.*
- 2) *The wastewater system repair shall be installed by a Septic Contractor with the appropriate level of certification. Owners may only install repairs that are conventional gravity fed systems. All other system types require a certified septic contractor.*
- 3) *Please fill out the Homeowner Interview Form thoroughly and completely. The more information you can provide, the better we will be able to diagnose the problem with your septic system and issue the appropriate repair permit.*
- 4) *Please make sure that the area of your existing septic system and the proposed or potential repair area location is accessible. Please note on the application if we will need to meet with you to gain access to the property.*
- 5) *If you have pets, please have them restrained, or otherwise controlled, during the repair evaluation.*

PLEASE INDICATE DESIRED SYSTEM TYPE:
