Onslow County Health Department

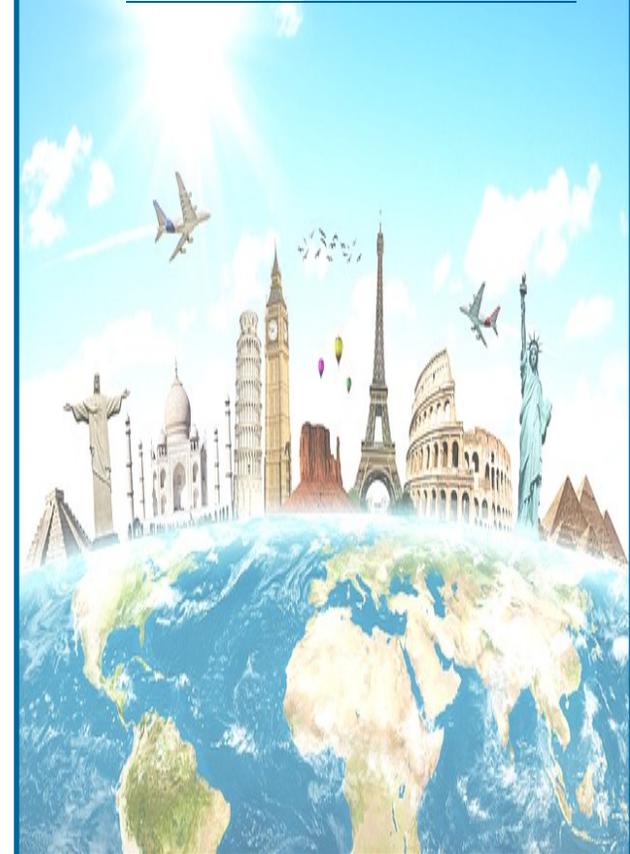

International Travel Clinic

The trusted provider of high quality, integrated services ensuring success for our community by building better lives.

Your First Stop:

Our International Travel Clinic

Planning a trip? Be prepared. One in four travelers reports an illness or other health problem while traveling.

Onslow County Health Department will provide you with education and vaccination to help keep you healthy while traveling. Significantly reduce your risk of illness abroad with a pre-travel consultation.

The Onslow County Health Department Travel Clinic offers a complete line of immunizations to protect you while traveling abroad. The most appropriate immunizations will be recommended based on your destination, duration of travel, activities, and medical condition.

Plan early - get your vaccinations in time for full protection. Pre-travel consultations should be made one month before traveling to your destination.

A Visit Tailored to Your Travel Plans

Our staff meets with each traveler to learn more about his/her plans, destinations, and activities while away. With this information, our team creates a health protection plan specific to the traveler, recommending immunizations and medications that will prevent illness.

Please note the Travel Clinic does not see patients that are pregnant or under the age of 12 years old.

Patients of the Travel Clinic receive:

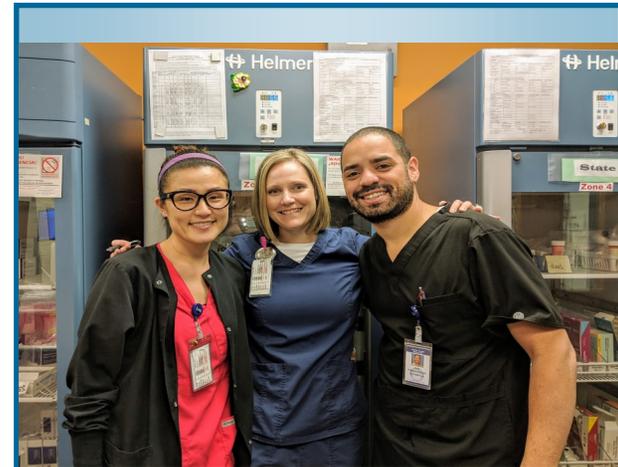

Travel advisories and up-to-date information

An important component of the consultation is education. The information travelers will receive include relevant travel information about their destination:

- Up-to-date information on potential health threats, including disease outbreaks and travel advisories
- Tips and advice on how to remain safe and healthy during travel
- Helpful information on the local culture
- Detailed information about immunizations received

Immunizations

Travelers will receive immunizations during their consultation by our qualified medical staff.

Payment Information

Costs

Insurances generally do not pay for travel vaccines; therefore, the Onslow County Health Department requires payment for travel vaccines at the time of service. We will submit a claim to your insurance carrier as a courtesy and refund you if we receive payment.

Tricare beneficiaries: Immunization(s) recommended specifically for travel outside the United States are not covered, except for immunizations required for active duty family members whose sponsors have permanent change-of-station order (PCS) to overseas locations. These immunizations are covered as outpatient office visits. NOTE: You must provide a copy of the sponsor's change-of-station order for claim filing purpose to Tricare. A prior authorization may be required for those covered by Tricare. Check with your primary care manager.
